

CETONE IS FOUND GUILTY

Senator Accused of Bribery Faces Penitentiary Sentence

JURY OUT SHORT TIME

Legislator's Wife and Son in Court When Verdict is Read—The Judge's Charge Fair.

Columbus, O., Dec. 5.—"Guilty as charged," said a jury last evening, after only one hour and ten minutes of deliberation in the trial of Senator George K. Cetone of Montgomery county, accused of taking a bribe of \$200 on April 27, 1911, from a man whom Cetone is said to have described to his colleagues as "a nice, smart business man," but who proved to be Detective Frank H. Smiley.

The verdict makes the senator liable to a penitentiary sentence of 5 years and a fine of \$500.

By the finding Cetone is guilty of taking the bribe on the Cetone insurance bill, No. 256, which he himself introduced and which the senator's associates said that he personally favored.

When the verdict came in the trials on all of the indictments brought about by the little telephonic device which has been the terror of alleged evil-doing legislators had been finished, and the toll of the instrument became three senators and one officer.

The senators are Cetone, Isaac E. Huffman of Butler county, and La-Forrest B. Andrews of Lawrence county, whose application for review of their cases in the supreme court will be argued today, and Senate Sergeant-at-Arms Rodney J. Diegle, already serving a three-year sentence.

Cetone, in court with his wife and little boy, eight years old, heard the verdict at 5:20 with no sign of emotion. His wife likewise was her furs from the counsel table, calm and cool, and, gathering up prepared to leave the room. The little fellow did not comprehend the proceedings.

The bringing in of the verdict was not without a touch of humor. Senator Huffman, Cetone's closest friend walked into court as the clanging of the bell proclaimed deliverance. Calmly he heard the doom of his friend pronounced.

While Judge Marcus G. Evans was consulting with attorneys about the day for arguing a motion for a new trial, which was announced, would be at once, and arranging bond for Cetone in the meantime, Senator Huffman arose and said to the court:

"His present bond is all right. It stood in my case."

The judge smiled and a titter went through the court room.

Although no statement was made the indications were that the jury was unanimous from the start.

Attorney General Hogan and Prosecuting Attorney Turner felt all the more gratified because the present jury is the only one which has not been segregated. It is due the defense to say that not a single report of any attempt to talk with jurors was reported. All other juries had been closely watched.

The trial probably will be the last legislative graft case of the year. If any one else is tried it will be former Mayor Charles Anson Bond, who is alleged to have offered a bribe to former Senator Drake on the county option bill four years ago. The trial probably will not be held until January.

Prosecutor Turner said last night that members of the legislature not heretofore mentioned and lobbyists will be caught when the investigation is continued. A few corroborating links remain to be connected.

"Will Cetone win any consideration if he now offers to tell all he knows?" Turner was asked. He declined to discuss the possibility of a clean breast from the convicted senator. Hogan added that Cetone might have been in better shape had he consented to accept the state's suggestion and had entered a plea of guilty. The state, it was said, would have been satisfied with a year's imprisonment on a plea of guilty.

Attorney General Hogan issued this statement:

"The state never wants to convict an innocent man, and the results in each case are all the more satisfactory, because they are in harmony with each other. Different juries have returned the same verdict and different courts have concurred. These things remove every possible doubt of the guilt of the convicted men. It is due the honest members of the general assembly, and only a small percentage are

dishonest, that the state should continue until the last guilty man is convicted.

"The day of rottenness in the Ohio legislature and corruption in Ohio municipal councils is about over. If this cleaning up business had started a quarter of a century ago rottenness would not have been so expensive in this state. From reports that are reaching this office almost constantly there is need in many sections for activities like those of Prosecutor Turner."

The charge of Judge Evans was pronounced remarkably fair, having earlier in the day refused to give the special charge asked for by the defense, that Smiley must be regarded as an accomplice and co-conspirator, the court agreed with Judge Kinkead in a former trial and held that the jurors need not consider Smiley as an accomplice, but as one who came to discover rottenness in the legislature.

Judge Evans held that it was essential that the state prove that the alleged bribe influenced Cetone's vote, but in this connection it was made plain that Cetone had no right to accept money for his work as legislator aside from his salary. "The presence of intent or purpose in accepting the money is a fact which you must determine," he said.

He also made plain the fact that if Cetone was lured into taking the bribe, it was no excuse.

The case was vigorously argued by Hogan and Turner for the state, and Charles E. Belcher and Con Mattern for the defense.

STEAMER IN DANGER; TUGS GO TO RESCUE

Duluth, Minn., Dec. 5.—The passenger steamer Easton of the Booth line is reported on the rocks near Port Arthur. Tugs have been sent to her aid. She carried passengers and package freight. Although the Easton has wireless the local station has been unable to communicate with her.

MARITAL MIX-UP AMUSING

Columbus, Dec. 5.—Authorities of New Martinsville, Wethzel county, W. Va., today made requisition upon Governor Harmon for Jacob and Elsie Barnhart, under arrest at Woodfield, Monroe county.

Soon after marrying Barnhart, Mrs. Barnhart married Isaac Littman. She was arrested on a charge of bigamy, sworn out by Barnhart. According to the requisition papers, after the woman was placed in the county jail at New Martinsville, her

STATE BOARD TO INVESTIGATE ALLEGED CRUEL TREATMENT OF BOYS AT INDUSTRIAL SCHOOL

Columbus, Dec. 5.—Members of the State Board of Administration made a hurried trip to Lancaster today to investigate alleged cruel and inhuman treatment administered to inmates of the Boys' Industrial School located there.

John Trosky of Grogan, suburb of Columbus, yesterday called upon the board and told of abuses to his son, administered at the school, which he said has resulted in the son becoming critically ill.

Members of the board called the school authorities over the telephone and learned that the boy was dying. According to the story told the board members by the father, the boy was severely whipped several days ago for dropping some dis-

MANN-ADAMSON VALUATION BILL PASSES HOUSE

Washington, Dec. 5.—The Adamson bill for a special commission to make a physical valuation of railroads and with the Mann amendment empowering the Interstate Commerce commission to regulate the issues of stocks and bonds, passed the house today without division.

KENTUCKY COLLECTOR EMBEZZLES

Newport, Ky., Dec. 5.—Henry Rusch, former delinquent tax collector of this city, pleaded guilty today to embezzling \$14,000 of city funds, and was sentenced to serve from two to ten years in the Kentucky penitentiary.

BURLESON'S DREAM NOT SUBMITTED

Washington, Dec. 5.—The first big supply bill of the present session of Congress, the Legislative, Executive and Judicial Appropriation bill, was reported to the house by the Appropriations committee. The measure carried \$1,597,103.30. The bill originally included a provision by Representative Burleson of Texas making former presidents members at large of the house, with a salary of \$17,500, but the full committee disapproved and it was struck out. President-elect Wilson will probably get the regular annual allowance of \$25,000 for traveling expenses.

WOULD DO AWAY WITH GUN-TOTERS

Columbus, Dec. 5.—State Senator-elect Charles Howard of Barnesville, who will represent the Twenty-second senatorial district in the coming legislature, today called a caucus of the Republican senators for Jan. 4, in Columbus. Senator Howard also announced that he will introduce a bill in the legislature, modeled after a similar West Virginia law, regulating the sale and carrying of revolvers and knives.

es in the kitchen. The father claims that as a result of the whipping the boy contracted pneumonia.

Mr. and Mrs. Trosky said they had been summoned to the school at Lancaster last Monday and found their son in a precarious condition. His legs and back were covered with welts. They remained at his bedside until Wednesday, when they returned to Columbus and complained to the board of administration.

Allen W. Thurman, member of the board, said today: "We will make a thorough investigation and spare no one. Complaints have been frequent and we have determined to get at the bottom this time." He said, however, that Major Gerlach, head of the school, was in no way responsible.

WHERE TO CHOOSE— WHAT TO GIVE

LIQUOR LICENSE PROPOSAL

Has Created Wide Difference of Opinion Over Its Terms

DRYS OPPOSE MEASURE

Claiming It is Full of Vicious Provisions—Details of Proposed Plan.

Columbus, O., Dec. 5.—That there is a decided difference of opinion between the retailers and the brewers and distillers over the terms of the proposed liquor license law and that the temperance forces practically may have the solid support of the independent retailers in their fight on the license code which the organized liquor interests want, is claimed by dry leaders here.

For this reason, it was stated that after petitions actually had made their appearance in various parts of the state, it was announced that the measure which the liquor interests want would not be ready for several days.

It is the claim of the drys that the measure is full of vicious provisions, which have been rejected by past assemblies that are run in under the guise of improvements to the present regulatory laws.

A complete system of licensing machinery under state control is provided in the initial draft of the proposed license code prepared by the special committee of the Ohio Liquor Association.

The governor is to appoint a "State Liquor Licensing Board" of three members, not more than two from one party and only one from any single county, at \$5000 salaries and to furnish \$25,000 bonds, the first appointees for two, four and six year terms, beginning January, 1914. No governor unless re-elected will name more than one member of the board, but the governor can remove any member of the state board or a county board on hearing and without appeal. Two is a quorum, and in case of disagreement the governor has a deciding vote. The board is to appoint a clerk at \$2600 and a deputy clerk at \$2400.

The state board is to appoint for each wet county a "County Liquor Licensing Board" of three commissioners, with maximum salaries of \$5000, bonded for \$5000 to \$50,000 according to the population of the county, for six year terms, the county boards to appoint a clerk at \$3000 and deputy clerk at \$2400 if the state board thinks necessary.

It is made the duty of the county board to "grant, issue, renew and transfer" saloon licenses, but not specifically to revoke them.

Sale of liquor by an unlicensed person is made punishable by fine of \$200 to \$500 for the first offense, \$500 to \$1000 or one to three months' imprisonment for subsequent offenses. If the unlicensed sale is by a corporation the "manager" of the corporation shall serve the jail sentence if one is imposed.

No license is required of brewers, distillers and vintners who manufacture liquor from the raw material for sale in gallon lots. Applicants for licenses must be United States citizens of good moral character, of age and of sound mind. If the applicant is a corporation, only the manager need possess these qualifications. The applicant must not be financially interested in more than one saloon, and if it is disclosed in (Continued on Page 2.—Column 2)

DISTRIBUTION OF PATRONAGE AT WASHINGTON

(By Clyde H. Tavenner.)

Washington, Dec. 5.—Everybody wants to know about the distribution of patronage under the new administration. Every member of congress of Democratic faith is receiving inquiries and applications by the hundred.

I came on to Washington at an earlier date than I intended, to try to discover the prospects of what will be done in a general way, but have found out nothing valuable, or tangible. There is much guessing and newspaper talk; but that is all. All things concerning the distribution of patronage are up in the air, so to speak. President-elect Wilson, who is residing in Bermuda, has not, so far as is generally known, given any indication of his intention on this subject. Nothing definite will be known until he speaks.

The only things certain at this writing are:

1. President Taft has by executive order placed all fourth class postmasters under the Civil Service, that is, all postmasters drawing less than one thousand dollars per annum. This means that the present fourth class postmasters will hold for life, or during good behavior, unless President Wilson revokes President Taft's order. Whether he will revoke it nobody knows.

2. Most of the places worth having except those which have to be confirmed by the Senate have been for some time under civil service. This greatly lessens the number of positions formerly available.

3. For twenty years the custom has been for federal officials appointed for four years, such as postmasters, U. S. marshals, etc., to serve out their terms unless they took part in politics during their terms. Whether this custom will continue it is impossible to say.

4. President Taft is said to have declared his intention to fill all vacancies as soon as they occur. But whether the Senate will confirm his appointees, or hold up their nominations, it is impossible to even guess.

5. The custom has been for the patronage of any particular state to be distributed through the Senators and Representatives thereof who are of the same political persuasion as the administration, if any such there be, and if none such, then through the national committeemen or some dependable friend or friends. Under that arrangement Representatives are depended upon to recommend postmasters in their own districts while Senators are depended upon to recommend postmasters in Congressional districts not represented by Congressmen of the same political faith as the President. Senators are also depended upon to recommend for marshals and offices of that kind, including departmental positions and places in the consular and diplomatic service, and in fact all offices not local. Of course, as a rule, the Senators consult with Representatives in these matters, all trying to do the most possible for their constituents.

6. What scheme for selecting postmasters, etc., President Wilson and his Cabinet may adopt is wholly conjectural. Some advocate one plan and some another. Consequently it might be best for those intending to be applicants to let matters rest until the situation clears up somewhat; but where one or more aspirants for a particular place start in to secure signers to petitions, recommendations, etc., it might be wise for all aspirants to do so too.

It has been figured out by some of the newspaper correspondents in the national capital that Mr. Wilson, when he enters the White House on March

LIFE TERM FOR MAN WHO DID NOT SUICIDE

Cleveland, O., Dec. 5.—Pleading guilty to second degree murder today for killing his sweetheart, Matilda Mazek, 14, on Oct. 17 last, Gabriel Nagy, 22, was sentenced to life imprisonment in the penitentiary. Nagy claimed that he and his sweetheart had a death pact, but that he was prevented from committing suicide by the girl's father, whom he wounded.

FLAGMAN IS BLAMED FOR THE DRESDEN WRECK

Columbus, O., Dec. 5.—John C. Sullivan, member of the public service commission, and O. F. McJunkin, one of the inspectors, returned Wednesday evening from Dresden, where they made an inspection of the wreck in which 11 lives were lost Tuesday evening.

The investigation was only preliminary to a more general and thorough one which will be made by the full commission within a few days. Mr. Sullivan found that the blame for the wreck, in his hurried examination, was with the flagman who failed to go back far enough to warn the approaching train of the position occupied by the train ahead.

MUST STOP FLOODS IS TAFT'S PLEA

Washington, Dec. 5.—President Taft today told the delegates to the National Rivers and Harbors Congress, in session here, that he personally was opposed to any system of improvement for the Mississippi river, which did not contemplate, as a primary object, the prevention of floods.

The President made the opening address at the Congress. He favored the expenditure by the United States government of the states in the Mississippi valley, of between \$50,000,000 and \$50,000,000 for the Mississippi improvement. He said that before all other considerations must be placed the idea of preventing floods like those of last spring, from Cairo to New Orleans.

Many of the delegates were startled by the President's speech. So far as they knew, it was the first time he had recommended appropriations for waterway improvements contingent upon flood prevention.

MUST FACE CHARGE OF PERJURY

Eight Indictments Returned in Probe of Election Frauds

SIX HUNDRED WITNESSES

May Be Summoned to Assist in Clearing Up Alleged Boodling in Jefferson County.

Steubenville, O., Dec. 5.—The grand jury which has been investigating election corruption in Jefferson county, today returned eight secret indictments, charging perjury before the grand jury of certain witnesses.

Thirty-five witnesses have been examined by the grand jury. It is said that a number of others have approached Prosecutor Paisley and Assistant Attorney General McGee, who are conducting the investigation, and have pleaded to be allowed to go before the grand jury alone and set their former testimony right.

Six hundred names of persons who probably will be called to testify are now in the hands of the investigators. One man who was given a shotgun for his vote and becoming conscience-stricken threw the gun into the Ohio river, has been summoned. It is said that the candidate who made the gift, alarmed by the investigation, tried to recall it but of course, in vain.

It is said the investigation will require four or five weeks more.

McGee and Paisley have intimated that it may be necessary to call 2,000 witnesses from the farms, the mines and the small villages throughout the county.

Coming in troops over the hills they would resemble the influx into West Union at the time Judge A. Z. Blair purged Adams county of election corruption. But the purpose that forced them to appear before the jury would be different in Jefferson county than it was in Adams.

Instead of punishing the vote-venders here, the men attacking alleged corruption are going directly after the men who are suspected of buying their way into office.

\$20,000 FOR GOOD ROADS IN ALL COUNTIES

THE GREAT KIDNEY REMEDY CONVINCES THE MOST SKEPTICAL

I want to tell you what Dr. Kilmer's Swamp Root did for me. I was completely broke down. My kidneys hurt me so that when I was down I could not get up unless I took hold of something to pull myself up with.

I tried different kinds of kidney pills, but they did me no good. Some one told me to try Swamp Root. I had no faith in it but to please my wife, I purchased one bottle and took it. I say it was beginning to help me and kept on taking it until I had taken six bottles and it straightened me out all right.

Swamp Root is the only medicine that did me any good. I thought I would write this letter and tell everyone that is afflicted as I was, to take Dr. Kilmer's Swamp Root. The six bottles I took cost me five dollars, and did me five hundred dollars worth of good.

Yours very truly,

HUNTING SEASON CLOSED WEDNESDAY; GAME VERY SCARCE

Wednesday saw the close of the hunting season in Ohio and numerous Newark and Licking county hunters took advantage of the last opportunity to get into the fields. Monday's rain made hunting conditions more favorable and many of the hunters found their dogs worked to a better advantage.

Newark and Licking county hunters were unusually fortunate in escaping accidents. Not a fatality was reported and only a few minor accidents resulting directly or indirectly from hunting trips were reported.

On an average game was scarce. Birds were found to be almost extinct. Rabbits were plentiful in certain parts of the county. There is a growing sentiment against more stringent protective laws for quail and other game birds and many hunters can see the passing of this popular sport in future generations.

PIMPLES AND SORES QUICKLY DISAPPEAR

Complexion Clears Up and General Health is Restored.

That's just what Laxipods do. You know what happens when you become constipated and your liver is sluggish. You feel dull and depressed, have headache, tongue becomes coated, dark brown taste in mouth, breath foul and complexion becomes sallow and yellow, and finally pimples, sores and ulcers result.

Then you need Laxipods, the little tablets that act just like Castor Oil, do not sicken or gripe and are so pleasant to take.

Keep a box of Laxipods in the house and use them whenever you need a good laxative or cathartic.

LIQUOR LICENSE

(Continued from Page 1.)

ter that any one else is interested besides the applicant, his designated partners or the stockholders in the corporation, the license is to be revoked.

The license year is to begin the fourth Monday in May. Applications are to be filed from March 1 to April 15. Applicants are to state name, including stockholders if a corporation, location of saloon, that for the past year he has not violated liquor traffic laws by selling to minors or drunkards or permitting gambling or lead women in his saloon, whether he has had a license revoked, where he has done business for five years.

Wholesale licenses are restricted to sales of two and two-fifth gallons, not to be drunk on the premises, but the number is unrestricted. Saloon licenses restricted, as required by the constitution, to one in each township or municipality of less than 500 population and not more than one to each 500 population in other townships and municipalities. If further limitation is made by council and popular vote, the limitation shall not take effect until the beginning of the license year, nor shall there be any further limitation for three years, nor shall the county board reduce the number of saloons.

Names of applicants shall be advertised in a newspaper "under a prominent heading," for which the applicant shall pay in a fee of \$5. There shall be published also the lists of licenses granted and applications rejected, the announcement to be made by May 5. Where there is an excess of applicants the preference is to be given those who were in business prior to May, 1912.

Licenses are good for one year and must be renewed if the licensee has met the requirements of law. If a licensee has been put out of business under the residence district local option law the board must give him a license to open a saloon in some other part of town.

If the board rejects an application the applicant must be furnished the reasons and given a hearing and told who are the complainants against him. On payment of \$50 the board shall grant a transfer of a license to any person qualified as to character, etc., providing two-thirds of the creditors of the licensee consent to the transfer. Consent of the board must be obtained for the change of location of a saloon.

If a licensee dies the license is considered personal property, to be devised by will or partnership agreement, or sold by order of the county board. There is no appeal from the county board to the state board in cases of rejection of applications for transfer or renewal, or of when the board has not granted the full number of licenses allowable. All other decisions of the county board are appealable. Licenses may be granted during the year when the full quota were not granted in May.

Conviction more than once of violation of the laws regulating the traffic automatically revokes a license and prevents a licensee ever getting another license. But all offenses committed in one day are to be considered one offense, and if a saloon keeper is tried for an offense prosecution for other offenses prior to the trial is barred.

The present law punishing saloon keepers for selling to minors or drunkards is changed to put the responsibility on the purchaser, a child or intoxicated person who tries to buy liquor being made liable to a fine of \$25 to \$100 for the first offense, and \$50 minimum fine or 30 days to six months imprisonment for subsequent offenses.

AMUSEMENTS

Last Night's Show.

A capable company of Scotch players in the east and an audience composed largely of the society folk of the city combined to make last night's production of "Bunt Pulls the Strings," a theatrical event of real importance. Graham Moffat's comedy of that name came to Newark with the reputation of being a play of unusual merit and the Shubert & Brady company that essayed its portrayal was wonderfully well cast, each member assuming his part as though the lines and stage business had been constructed with him in mind.

The fact that the lines of the play were spoken in the Highland Scotch dialect, together with the fact that each player spoke with a rather confusing Scotch burr made it difficult for ears accustomed to the harsh American twang to follow the action of the play, but this was overcome in a measure by the continuity observed in the development of the plot.

Miss Marjorie Murray, who undertook the portrayal of Bunt, was a charming actress and her delineation of the capable and quick-witted girl left little to be desired. At times she was disposed to ignore the womanliness of her part in attempting to make Bunt just a little too domineering.

James H. Heron as Weesum, playing opposite Miss Murray, was too reserved in action and too lugubrious in appearance to prove much of a distraction from the splendid work of the latter. James Finlayson as Rab Biggar and Peter MacArthur as Tammas Biggar, were well cast and made the most of the opportunities afforded them by the author.

In addition to Miss Murray the other female members of the cast were exceptionally clever. This was especially true of Kate Lang, as Susie Simpson, and Elizabeth Lang as Elen Dunlop. The minor part of Teenie Dunlop, which was played by Alice Horine was done with ease and understanding.

Donald MacGregor as Jeems Gibbs, Selma Hall as Maggie Mercer and George Hadden as Dan Birrell formed the remainder of the cast.

One of the unique and pleasing features of the performance was the musical program played during the intermissions by the Auditorium orchestra. This included "The Wee MacGregor," "Highland Patrol," "Recollections of Scotland," by Graham, Catlin's Bonnie Scotland, and "A Wee Bit o' Scotch," by Helt.

The Traveling Salesman.

The coming engagement of "The Traveling Salesman," Jas. Forbes comedy success, at the Auditorium, Saturday, Dec. 7, matinee and night, can truly be called one of the big theatrical events of the present season.

The first act of "The Traveling Salesman" shows the interior of a railroad depot at Grand Crossing, a little town in the Middle West. It is here that Bob Blake, the traveling salesman, makes the acquaintance of Beth Elliott, the pretty telephone operator and ticket agent.

Beth is possessed of a barren and untillable piece of land which suddenly becomes of immense value because it is necessary to a scheme of

improvement the railway company desires to carry out.

Martin Drury, who is Blake's employer, becomes possessed of the knowledge that a railroad company is to make the improvements, and attempts to fraud the girl of the property through a perversion of laws governing the sale of land for unpaid taxes. It is Blake's aim to defeat the scheme and the predicament in which he finds himself

through his impetuous and misguided efforts furnishes the necessary dramatic thread for Mr. Forbes' comedy, which runs chiefly at the humorous expense of the character of the traveling salesman.

The second act, which takes place in Blake's room in the village hotel, is said to be one of the funniest ever staged. It represents a hotel sample room and shows the drummers' pocket guide in full swing.

"The Traveling Salesman" scored an unequivocal success in Chicago and New York, in which cities it ran for over a year. The company presented the play this season is a most capable aggregation of actors of excellent artistic reputation and the scenic equipment leaves nothing to be desired.

National Stock Company.

The name of the National Stock Company, which begins a week's engagement at the Auditorium, starting Monday, Dec. 9, has for the past five years been synonymous with admirable dramatic productions, clean, wholesome and absorbing plays, intelligently staged and conscientiously interpreted by a cast of excellent merit.

What a management has done in the past is the best assurance of what it will do in the future and there is, therefore, every reason to expect a thoroughly excellent presentation of "The Power of Politics," which will be the opening play on Monday evening. Messrs. Rourke & Brown have secured an excellent cast and with the vaudeville that will be introduced between acts, will be the best that high salaries could procure.

Ladies admitted free Monday night if accompanied by a paid 30c ticket and reserved before 6 p. m. Monday. Self opens Saturday at 9 o'clock a. m.

John Hyams and Lella McIntyre, Joseph M. Gaites will present at the Auditorium on Tuesday, Dec. 17, John Hyams and Lella McIntyre and their splendid company in the musical comedy success, "The Girl of My Dreams." In the star roles will be

that clever team, Hyams and McIntyre, heretofore favorably classed among the bright stars in the vaudeville firmament. Others of particular importance in the cast are Irving Brooks, Della Niven, Alice Hills, Francis Gaillard, Neil Burns, Sylvia De Frankie and Frank McEwen.

Wilbur D. Nesbit of Chicago newspaperman, and Otto Hauerbach are the authors of the book and lyrics, and unusual in musical comedy, it is said to be full of plot and counter plot, and divested of its music would be consistently labeled a screaming comedy. The music by the late Karl Hoschna has character of high class and the song hits are "Quaker Talk," "The Letter You Should Not Have Sent," "Dear Little Games of Guessing," "The Story of a Marionette" and "Doctor Tinkle Tinkle," a decidedly catchy number that demands encore after encore.

"The Girl of My Dreams" has proved a phenomenal success to Mr. Gaites' phenomenal success, "Three Twins."

The Orpheum.

The show for the little Arcade theatre today is very good. The Arian Quartette heads the bill and offers some very good numbers. The act was a big success in Zanesville Monday, Tuesday and Wednesday and should prove a big treat here.

Miss Ollie Wood, as the Buster Brown Kid, makes many changes in her little act, sings many nice songs and uses many good dancing features.

The young lady singing and the little comedy singing and talking act by Silber & North is a good one. Mr. Silber, as the bashful man, does many funny stunts, and their part of the entertainment is good.

The Cliffords, with a big musical specialty and novelty act, close the bill. They play many nice pieces and are very clever musicians.

The bill should bring big returns as it is really a good one.

The first souvenir matinee of the season starts tomorrow at 2:15 sharp and each lady present at this matinee will receive a handsome piece of chinaware. The price of admission will be the same as always, and this special souvenir matinee should bring forth many ladies who are lovers of such useful articles as are to be given away.

A LITTLE STORY ABOUT 35 CENTS

"Did you ever buy a man for 35 cents?" asked a Newark traveling man to the writer the other day.

Receiving a negative reply, the salesman told this story to the truth of which he was ready to make affidavit. Once upon a time he visited a certain Ohio city and called upon a merchant who bought a bill of goods and for which payment, \$10.35 was due. The merchant was a grouchy and had the habit of some men acquire of treating every salesman in a gruff, discourteous way. The bill was presented, the man drew from the register several pieces of money and slamming it down upon the counter walked away. The Newark man counted the cash and found he had been paid \$10.70—35 cents too much. He said nothing but left the money lying upon the counter. Soon the proprietor appeared and yelled:

"Ain't you gone yet? There's four money. Take it and get out."

"But there's a mistake about it and I'd like you to correct the matter."

"Mistake nothing. We don't correct mistakes like that. You've got all I owe you. Take that money and go."

But he got no farther when the Newark man interrupted him by saying:

"You've given me 55 cents too much. I don't want it. It's yours," and with that he picked up his \$10.35 and started to go, leaving a quarter and a dime still upon the counter.

The man's jaw dropped, he looked like a spanked boy and said nothing, but he hunted up that traveling man at the hotel, introduced him to others about town as a "square fellow" and got him some business. That merchant and that salesman are now fast friends and it all came about as a result of the incident here related.

DOUBT DISAPPEARS.

No One in Newark Who Has a Bad Back Should Ignore This Double Proof.

SWAIN AND CASSIDY GET ENDORSEMENT OF GOVERNOR-ELECT COX

Columbus, O., Dec. 5.—Governor-elect James M. Cox, through a statement given out here by Democratic headquarters yesterday, formally has declared for John R. Cassidy and Charles L. Swain as leaders in the House of Representatives.

That the new Governor favored these men had been known for some time, but the public declaration has been deferred until the track was made clear. The statement was given out by W. L. Finley, and reads:

"The Governor-elect has decided to endorse the selections of the progressive leaders of the state for Speakers and Clerk of the House. These are: Charles L. Swain of Cincinnati, for speakership, and John R. Cassidy of Bellefontaine for the clerkship of that body. The organization of the Senate will be completed by giving second terms to Senator William Green, for President pro tem, and William Gosborn of Gallon, for Clerk, positions which they filled satisfactorily in the last General Assembly."

PHYSICIAN WILL SECURE SERUM FOR CONSUMPTION CURE

Upper Sandusky, O., Dec. 5.—Dr. O. C. Stutz of this city will sail for Europe on the steamer George Washington, January 2, to spend four weeks with Dr. Frederick Franz Friedman, the German tuberculosis expert, who has practically proven that the disease is quickly curable by use of a new serum.

Dr. Stutz will attend clinics of the noted specialist who has cured hundreds of cases with the anti-toxin serum in the past two years. It requires from one to three injections of the serum to cure, and consumption can be cured by it in from two to four weeks.

Dr. Stutz will bring back with him instruments and serum for the treatment of tuberculosis. A large number of American scientists are already on their way to Europe to get serum. Dr. Friedman states that when the lung tissue is gone it, of course, cannot be replaced, but the serum, which originally came from turtles, will destroy all the germs within the body. He will not send the serum to this country but doctors must go to him personally and get instructions.

Drives Off a Terror.

The chief executioner of death in the winter and spring months is pneumonia. Its advance agents are colds and grip. In any attack by one of these maladies, no time should be lost in taking the best medicine obtainable to drive it off. Countless thousands have found this to be Dr. King's New Discovery. "My husband believes it has kept him from having pneumonia three or four times," writes Mrs. George W. Place, Rawsonville, Vt., "and for coughs, colds and croup we have never found its equal." Guaranteed for all bronchial affections. Price 50c, and \$1.00. Trial bottle free at F. D. Hall's.

MOORE MAY CONTINUE IN PRESENT POSITION; FINLEY'S LATEST JOB

Columbus, O., Dec. 5.—From Cleveland comes a report to the effect that

State Insurance Superintendent E. H. Moore is not to retire after all, but will continue under the Cox administration. Chairman Finley, who was said to be after Moore's place, is to have, it is said now, the place in the state utilities commission now held by John L. Sullivan. This is borne out by the fact that Mr. Finley is now at work with Commissioner Hughes, studying the utility laws of Wisconsin. The place in the utilities commission pays a thousand more a year than the insurance job.

Mr. Moore is the representative of the state in the national Democratic committee, and it is said that Governor-elect Cox has already entered the field as a pacificator, hoping to eliminate the Harmon and anti-Harmon factional line as soon as his administration begins.

GERMAN PRESS GIVES PRAISE TO NEWARKITE

Press reports received in this country from Posen, Germany, where Miss Elsie Hirschberg of this city made her debut in grand opera recently, indicate that the popular Newark singer is meeting with the favor of German critics, renowned for their extreme powers of discretion and tendency to over-estimate efficiency. Says the Posen Tageblatt, following Miss Hirschberg's appearance in Tristan und Isolde:

"Among our home singers, Fraulein Elsie Hirschberg (Lyon) gave an excellent example of her artistic ability. Her voice showed love and fidelity as she sang very sympathetically in the role of Brangene, highly cultured, clear and with charming tone color, which contrasted with the swelling recitative of Isolde."

The Posen Zeitung said: "Everything else which our home stage brought forth is free from the least criticism. In the first place, I would mention the Brangene of Fraulein Elsie Lyon. The lady was assuredly the highest among the singers, in giving such a tasteful presentation of her part, unaffected and realistic to the extreme."

Miss Hirschberg has signed contracts to sing grand opera on the German stage for the next two years, advances further state, the success of which is assured in the minds of all who know Miss Hirschberg and her remarkable talent.

SOCIALISTS TO HAVE LECTURE FRIDAY EVENING

Everyone admits room for improvement in social adjustments. The Socialist party offers a complete program. The movement is making rapid progress throughout the civilized world. At the recent national election they more than doubled the vote of four years ago, the total vote being in the neighborhood of a million. Our campaign is on for education. We invite everyone to study our theories. To that end the national organization has established a Lyceum bureau, offering a series of lectures to any locality desiring same. Mr. J. L. Fitz of Florida, will be at Socialist Hall, 31 1-2 South Park Place, Friday evening, December 6, to deliver the first lecture. Everybody is invited, men and women. Admission free. Other lectures will be announced from time to time. If we are not getting what is due us in this life in America it is largely our own fault, as we have the matter wholly in our own hands. Let us not let prejudice control us but look into all methods and select the best. It is no longer a disgrace in the eyes of intelligent people to be a Socialist. Don't take your politics ready made from some special interest but learn for yourself. Socialism is no secret society. All our meetings are accessible to the public at all times and any citizen is as welcome to attend as a regular member. We invite you especially to this lecture December 6 at 7:30 p. m.

COMMITTEE.

DIDN'T KNOW COMPANION WAS DEAD

Catlettsburg, Ky., Dec. 5.—The body of Miss Minnie Turner was found in a room at a hotel here this morning, when the owners of the hotel forced the door. James Yorke, of Huntington, W. Va., was dying, and a second woman, registered as Mrs. Yorke, appeared in no way able to account for the mystery of the death.

The three persons registered together at the hotel Monday night and had not left their rooms.

Today when the rooms were opened Mrs. Yorke appeared not to know that Mrs. Turner was dead, although indications were that she had died at least 48 hours before.

Coroner Swope of Ashland, who began an investigation at once believes death was caused by poison. Mrs. Yorke is being held.

HE CHASED TRAIN OUT OF THE TOWN

A big fat man carrying a heavy grip in his hand and an overcoat hanging from his left arm was seen running south on Third street towards the Pennsylvania station. A west-bound passenger train stood at the depot but as the stranger passed the jail the engine was seen to move. The man hastened his speed and reached the platform just as the last car passed him. Puffing and panting and perhaps somewhat exasperated, the "drummer" walked to the station door when a loafer remarked:

"Was you tryin' to catch that train?"

"No," was the rejoinder, "I just came down to chase the darn thing out of town."

**DEMOCRATS
SHOULD PRESERVE
THEIR KEEPSAKES**

It is pleasing to note that much value is being attached to the receipts from the Democratic National Committee for the donations made by subscribers to the Woodrow Wilson campaign fund. Although the receipt may be only for a dollar the donor has reason to value it for the sentiment it represents. The dollar donations were generally made through the channel of the newspapers who took the subscriptions and published the names of the contributors. The Advocate received subscriptions from 52 Democrats, whose names were published in its columns and the money was forwarded to the National Committee who sent receipts direct to each subscriber.

But the Advocate wishes to impress on each and every one of these subscribers that these receipts are worthy of being laid away as future keepsakes, because the Democracy have succeeded in this year 1912 in electing in the person of Woodrow Wilson the first real Democratic President since the civil war.

This statement is equivalent to an assertion that the administration of Grover Cleveland, unfortunate as the fact is, was not genuinely Democratic—that it was not Democratic either in sentiment, policy or method. It is not necessary on this occasion to enlarge on the particular historic facts or details that verify this statement. That may be a subject for further discussion.

The matter sought to be impressed on the minds of Democrats now is that a real true blue Democrat, possessing the highest type of statesmanship and qualification, not surpassed in any sense by Jefferson himself, has been elected President of these United States, the first of his kind since the civil war.

For this reason every Democrat should cherish the name of Woodrow Wilson and preserve for future generations the evidence of his own offering to secure that grand man's election.

Some of the Allies fear there won't be enough of Turkey in Europe to go around.

The Bermuda Assembly isn't big enough to give Governor Wilson any valuable lessons in managing a Congress.

Knees Became Stiff

Five Years of Severe Rheumatism
The cure of Henry J. Goldstein, 14 Barton Street, Boston, Mass., is another victory by Hood's Sarsaparilla. This great medicine has succeeded in many cases where others have utterly failed. Mr. Goldstein says: "I suffered from rheumatism five years, it kept me from business and caused excruciating pain. My knees would become as stiff as steel. I tried many medicines without relief. I soon felt much better, and now consider myself entirely cured. I recommend Hood's." Get it today in usual liquid form or phocinated tablets called Sarsapabs.

**MT. VERNON
DRUGGIST
IN TOILS**

Columbus, O., Dec. 5.—The United States grand jury today returned 18 indictments, six of which were against druggists arrested in a recent government raid and charged with sending unmailed matter through the mails. Three of the indictments were secret. Those indicted for sending unmailed drugs through the mails were Harold H. Hickinbotham of Mt. Vernon; Robert C. Henderson of Steubenville; Ray N. Biegle of Marietta; Charles F. Hutton of Columbus; H. F. Curtis of Marietta, and William Syter of Marietta.

Other indictments made public were: Albert Owen, Cambridge, charged with bootlegging; Charles H. Hazel, alias Charles H. Miller, and Mary King, alias Mrs. C. H. Miller of Columbus, charged with using the mails to defraud, in a business scheme; Charles Ford, Cambridge, charged with bootlegging; Rosa Hunter, Columbus, bootlegging; Charles Burgett, charged with robbing postoffice at Constitution, Washington county; Joseph M. Napier, alias J. M. Moody, Harrison county, charged with slave slavery; Charles Langsdale, Marietta, charged with sending an obscene letter through the mails to Miss Bessie Eddy of Marietta; and J. L. Dollison, rural mail carrier, Cambridge, charged with taking \$28 from the mail.

Dollison was sentenced to three months in the Guernsey county jail and fined the costs of the case.

Langsdale, who is an 18 year old boy, pleaded guilty and Judge Sater postponed sentence until later today.

**WILL DISCUSS
EASTERN ROAD'S
TRAFFIC DEALS**

Washington, Dec. 5.—Chairman Henry of the House Rules committee today tentatively set next Tuesday for hearings on the resolution of Representative O'Shaughnessy for a Congressional committee of seven to inquire into the alleged traffic deal between the Grand Trunk and New Haven railroads.

**FOR TONSILLITIS
COLD IN CHEST
OR SORE THROAT**

A Simple, Harmless Remedy That Acts Promptly and is Easily Applied. All Should Investigate This.

Many people catch cold so easily that exposure to damp night air, cold winds or being caught in a storm or drizzling rain, means for them either Tonsillitis, Sore Throat, or a bad cold in some form.

If you want a simple, harmless remedy that will protect and strengthen the linings of the air passages so they will be able to resist and throw off colds, try the Nostriola treatment.

Nostriola is a pleasant, harmless, antiseptic, cleansant, healing balm, quickly reaches and opens the air passages, heals the sore inflamed membranes and a pleasant surprise awaits all who use it.

If you are troubled with Catarrh, Catarrhal Deafness, Head Noises, Asthma, Hay Fever, or other stoppages of the air passages, certainly you should give Nostriola a trial.

Hundreds of people in this vicinity are using the Nostriola treatment. Ask your druggist about it and get a 25c tube today. You'll wish you had tried Nostriola sooner.

Adenoids.
Children with adenoids often have earache. Notice if your child complains of earache and whether a little matter does not come from his ear. Does he hear well? Don't always blame him if he is slow. Perhaps he is deaf. Earache often means that the child has adenoids. Adenoids should be removed. Earache always means that the child is in danger of getting deaf and that he is in danger of getting a running ear. A running ear is always dangerous, for the child may get brain fever from it. A running ear should always be treated by an ear doctor. It will not get well without good care, and it may make the child deaf.

**IF YOUR LIVER IS INACTIVE
AND BOWELS WASTE-CLOGGED.**

Delicious "Syrup of Figs" removes the sour bile, foul gases and waste from the system without gripe or nausea—Regulates your 30 feet of bowels.

Primitive folks did not need laxatives. They lived outdoors, ate plenty of fruit, and all of their food was coarse. We modern people are different. We exercise too little, eat little fruit, and our food is too nice—too rich.

We simply can't have our ten yards of bowels clogged up, liver choked with sour bile and stomach full of foul effete matter and feel well. It means that the food and waste retained in the stomach and thirty feet of bowels ferments—decays. The decay creates poisons, gases and acids, and these poisons are sucked into the blood through the very ducts intended to suck in the nutriment. Then we have sick headache, become dull, bilious, tongue coated, nervous, meals don't digest, and we feel miserable all over. So we must make our choice.

We must live like primitive folks, else we must take artificial means to move the excess bile and waste matter on and out of the system.

The safest, most harmless and effective stomach, liver and bowel cleanser and regulator for men, women and children—is delicious Syrup of Figs, which doesn't irritate, gripe or weaken. Its effect is the effect of fruits. It is composed entirely of luscious figs, senna and aromatics. Don't think you are drugging yourself. Syrup of Figs can be constantly used without harm.

Ask your druggist for "Syrup of Figs and Elixir of Senna," and see on the label that it is prepared by The California Fig Syrup Company. This is the only genuine — the old reliable. Refuse, with contempt, the so-called Fig Syrup imitations sometimes offered to deceive you.

**STIMSON WOULD
MAKE RIVERS
PAY FOR REPAIRS**

Washington, Dec. 5. — "Harness the Mississippi and make the water power development pay for the expenditure of improving the river," was the gist of the message brought today by Secretary Stimson to the Rivers and Harbors Congress.

Mr. Stimson declared that when the association assumed responsibility as great as that of spending \$50,000,000 for improving a river, the general tax payers of the country should get the benefit of the incidental profits arising.

**HAUNTED BY
CRIME, DERR
CONFESSES**

San Francisco, Cal., Dec. 5.—"I thought I would forget, but I could not," John Wesley Derr, 20, an apprentice seaman at the naval training station at Yerba Buena Island, told officers here, confessing that he had murdered a man at Richmond, Va., three years ago. Derr said he struck a man on the head and killed him and that there was a reward offered for his capture.

CONFIDENTIAL

Dear Woodrow Wilson: Let me say how glad I am you won! And now the smoke has cleared away, and all the shouting's done, it won't be out of place, I guess, to take the liberty of telling you that your success was largely due to me. I organized three Wilson clubs at Mudville-on-the-Hill, when all the other village dubs stood up for Ted or Bill. While others raved about the flag and made a frightful din, I wore a red bandana rag and Woodrow Wilson pin! I punched old Billy Biddad's head, and thus rebuffed his crimes, when he came round one day and said that you would bring your foes, and packed around a big tin torch which leaked and spoiled my clothes. My pup's named Woodrow and my cat your honored surname bears; an old-time Allen Thurman hat your correspondent wears. I've yelled my larynx out of joint, and now that you've the chance, your faithful friend you should appoint ambassador to France. Don't lay this claim of mine aside for less important things; an audience should be denied to statesmen, consuls, kings, till you've rewarded those who wore your colors in the fray, till you have honored those who bore the burden of the day.

Yours truly,
Derr Mason

THE HUMAN PROCESSION

By O. Terrence.

"FROM WAIF TO MAYOR"—NOT BY HORATIO ALGER JR.

"From Waif to Mayor" might be the title of a thrilling tale by Horatio Alger Jr., or Oliver Optic, but it is not. It is a true story from the pages of real life and relates to the career of Henry Lee Jost, who was born in New York 35 years ago today, became a homeless waif in the old Five Points Mission in that city, and who last spring was elected mayor of Kansas City.

It was in the autumn of 1879 that an unkempt, naggard-looking man called at the Five Points House of Industry, and explained that he was Simeon Jost, and that the frail and dirty youngster that he carried in his arms was his son, Henry Lee Jost. The man declared that he was down and out and no longer able to take care of the boy. After telling his child's name and saying he was born Dec. 5, 1877, the man and his wife refused other information. He was assured that the lad, then less than two years old, would be properly taken care of, implanting a farewell kiss on the lips of his son, the man left and was never heard of again.

Henry Lee Jost remained at the mission until nearly four years of age. Then the Children's Aid Society was asked to find a home for him. In August of '81 a train load of orphans was sent west and among them young Jost. He found a home with Philip Dale, a farmer residing near Hopkins, Mo. There he spent his youth attending a country school and doing such work as falls to the lot of the average rural youth. New York was a vague memory and Henry Dale, as the neighbors called him, was as bucolic as if he had never heard of the great city.

The agents of the Children's Aid Society kept an eye on Jost, as it does on all children committed to its care, and in 1898 it was reported that the Missouri farmer lad was studying law, had become a justice of the peace and would soon be admitted to the bar. The latter prediction came true. The following spring and the young attorney went to Kansas City, where he became associated with the public prosecutor. As assistant district attorney he played a prominent part in the trial of Dr. Hyde for murder and made a national reputation.

Last April Mr. Jost ran for mayor of Kansas City on the Democratic ticket and was elected, defeating Mayor Brown, the incumbent. The success of young Jost has been duplicated hundreds of times by homeless waifs sent to the country by the New York Children's Aid Society. Indeed it is said that of the 39,000 youngsters for whom homes have been found by the society, fully 90 per cent have grown up to be useful citizens and that many are now wealthy business men, successful politicians, able professional men or—that is more important—good farmers.

"The country is the place to rear boys," declared Mayor Jost, in a statement he made shortly after his election. "There is an expansiveness to the West and its lands that makes it possible for boys to develop into strong, broad-minded men. I have never regretted having to start for myself on a farm. The advice to go West is as good today as it ever was. A governor of a Western state came west as a founding, and has won fame and honors, nor is he an exceptional case. The West does not care for lazy boys, but it has need and opportunities for those who can serve. Any boy with grit can make good in the West. People and business will come to you if you do service and are honest."

Which advice also sounds like Oliver Optic or Horatio Alger Jr.

**ATTENDANCE IS
INCREASING AT
THE MEETINGS**

"When Christ comes again to this earth he will be accompanied by more than one hundred million angels to receive his people. His coming will be literal, personal and visible," said Mr. Weaver last night to a large and attentive audience at the Adventist church.

The attendance at the meetings is becoming larger, and the interest is greatly increasing each night.

Mr. Weaver asserted that there is no subject of so great importance to Christians today as the subject of the Second Coming of Christ. He said also that there is no subject upon which there is greater division of opinion than upon the manner of Christ's return. He said that many had built up theories in their own minds and had then gone to the Bible and taken texts and bent them to fit their theories, thus giving to them an appearance of having been taught by the Bible. He said, "The proper way for men to understand the Bible is to lay aside their own opinions and pre-conceived ideas at the doorway of investigation and make the Bible the infallible arbiter of every question, seeking, with humility to find just a 'Thus saith the Lord for everything.'"

"That Christ will come again is proved from his own words while on earth and the other Bible writers. The writer of the Hebrew letter, for instance, says in Heb. 9:28, 'So Christ was once offered to bear the sins of many and unto them that look for Him shall he appear the second time, without sin, until salvation.' Also note Christ's own words to the disciples as recorded in John 14:2-3. 'I go to prepare a place for you, and if I go and prepare a place for you, I will come again and receive you unto myself, that where I am, there you may be also.'"

On this point Mr. Weaver said that there are many systems of religion that teach that the second coming of Christ is merely the dissemination in the world of their particular theory. Others teach that Christ's coming is at the deathbed of Christians. Still others say that Christ is to come to this earth and for a time be invisible to the majority of the earth's inhabitants, and that he will gradually subdue all evil, give the wicked a second chance to accept Him, etc., etc.

"All these teachings are confusing, misleading and deceptive," said he. "They are all designed by the enemy of God to cause the loss of souls, by uniting them for the real event, as it is plainly described in the Bible."

It is announced that Mrs. Weaver will lecture on "The Time of the Coming of Christ," showing from the Bible just how near His coming is. Mrs. Weaver has had many years experience in evangelistic work and finds great pleasure in taking her stand beside her husband in the work of teaching the Word of God.

YOUR HAIR IS FLUFFY, BEAUTIFUL AND LUSTROUS IN A FEW MOMENTS

Girls! Get a 25 Cent Bottle of "Danderine" and Try
This. Also Stops Falling Hair; Destroys Dandruff.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine" hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair. Besides beautifying the hair at once, Danderine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair. But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—growing all over the scalp. If you are fair, pretty, soft hair and lots of it surely get a 25 cent bottle of Knowlton's Danderine from any druggist or toilet counter, and just try it.

Peripatetic Christmas Presents

HOEBE was sitting on the floor looking at a heterogeneous collection of articles about her. "There is no reason whatever," she said to herself, "why I shouldn't send these forth on a second voyage of Christmas cheer. They are every bit as good as when I got them. And I am sure it is much better for them to be useful than to lie stacked up on my shelves. And it is much more sensible for me to sit comfortably here and apportion them around and fix them up than it is to wear myself out chasing through the shops for something no better."

She gazed reflectively a while at the meles. "I could take that safety pocket and embroider a monogram on it and send it to Alice. She's going South after Christmas, and travelers are supposed to rejoice over safety pockets."

She picked the safety pocket up and laid it to one side. "I'll never use it if I live to be as old as Methuselah."

"I could touch up that embossed leather writing tablet with gold and give it to Minnie. A college girl always finds use for such a thing."

She picked up the portfolio, gazed at it tenderly a few minutes, and also laid it aside.

"I've got one Barre Lion and I don't want two about the house. This is no lion's den. I could send that to Jean for her studio."

And Jack would just love that antique-looking paper cutter. It doesn't match my desk set. And besides, I have one. There isn't a thing here I couldn't find a delighted owner for. It certainly does seem foolish not to pass them on. Maybe they would keep on going and come back to me in the course of time, having made a good many people happy in their progress. Because knowing that a person has thought of you is really the chief thing about a Christmas gift. I wonder if something in the nature of a peripatetic Christmas gift couldn't be evolved. It would save a lot of work and worry. Each year, it could just move on to a new owner."

She sat a while longer gazing at the things about her. Then she suddenly jumped up, gathered them all together, and put them back into her closet.

"It's awful," she said, "to be a combination of sentiment and tradition. I'll go on, I suppose, moving those things about and dusting them till the day of my death. Meanwhile, I'll enter the scrimmage down town and probably get nothing half so nice. Perhaps some day I'll screw up enough courage to send them to some missionary; and he'll wonder what he's getting safety pockets for, when he hasn't any money, and paper knives and jewel cases and pieces of sculpture. But that's a woman's way."

Then with a worried look, she picked up her Christmas list and started down town.

Guests of the club were Mrs. Jesse Elliott, Mrs. Bernard Wingerter and Mrs. John Braddock.

MITCHELL-BAUMGARTEN.

Taking their host of friends in this city and Cambridge by surprise, Elmer E. Mitchell, of the metal polishing department at the Wearle foundry, and Miss Laura Baumgarten, daughter of Mr. and Mrs. Fernando Baumgarten, of 56 North Sixteenth street, were married Wednesday evening at the home of the groom, 151 Day avenue, where they will reside hereafter. Not even the members of the bride's family nor the three daughters of the groom, who is a widower, were aware that the ceremony was to be performed Wednesday night, although it was understood that the marriage would occur sometime before Christmas. Rev. P. H. Frye, pastor of the West End chapel, pronounced the ceremony at five o'clock.

Mrs. Mitchell has resided in this city for the past seven years, coming here from Cambridge. For some time she has been employed at the Meyer & Lindorff store and by her charming disposition has won many friends. The groom is well known here and enjoys the confidence of those who know him as an industrious and capable gentleman.

AGED WOMAN FILCHED THE MILK BOTTLES

HONORS FOR WOMAN WHO LIVED HERE

Reports of the annual national Congress of Mothers, held during November in Fort Worth, Texas, and attended by delegates from every state in the union, tell of the election to the national presidency of the organization of Mrs. C. W. Hutchinson, of Fort Worth, who for many years has served efficiently as leader of the local organization in that city.

The story is of especial interest here inasmuch as Mrs. Hutchinson is a former resident of this city, a daughter of Mrs. Jennie M. Wreth of Hudson avenue, and a sister of Miss Lucy Wyeth. She has a large circle of friends here who are extending their sincere felicitations upon the honor conferred in recognition of her aggressive interest in the problems of motherhood.

The Mothers' Congress is one that marital relations and the employment has demanded the attention of legislators in all parts of the country in the drafting of laws especially appertaining to domestic affairs, of child labor. With such aims, the organization's leader must of necessity be a woman whose life is made up of concentrated activity along such lines, and those who know Mrs. Hutchinson cannot but feel that under her direction the Congress must prove of unusual efficiency.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

MOTHER TO HEAR MARRIAGE SERVICE OVER A TELEPHONE

That his mother, an invalid, might hear the wedding service which unites the lives of Arthur Zell of Rochester, N. Y., and Miss Aurelia Mayer of Newark, Mr. Zell has caused to be installed at the Mayer home in North Eleventh street a long distance telephone.

Thursday afternoon when the service is read, the bride couple and the officiating minister will talk into the transmitter of a portable telephone while in a par station booth at Waynesville, Warren county, more than 100 miles away. Mr. Zell's invalid mother will sit with a receiver pressed closely to her ear listening to the sacred vows taken by the young people which will start them on a new and bright future.

The bride is a daughter of Mr. and Mrs. George Mayer of 117 North Eleventh street. She was graduated with the class of 1911, Newark High school. Mr. Zell was graduated the same year from Denison University, where he took an engineering and scientific course. He is now employed with a firm of contractors engaged in erecting several buildings at Rochester, New York.

Mr. Zell's mother was unable to travel to Newark to attend the service and the young man was disappointed. He conceived the idea of connecting Newark and Waynesville with a long distance telephone wire which would all but bring his mother into the room where the ceremony was to be performed.

He consulted Manager Wallace of the Bell Telephone company and the necessary arrangements were soon completed. Thursday morning Manager Wallace personally supervised the installation of the portable instrument in the Mayer home and will also see that a good clear line is obtained through to Waynesville, that the mother may have no difficulty in hearing the service.

Rev. Joseph A. Bennett, former pastor of the Fifth Street Baptist church, will perform the ceremony this afternoon at 5 o'clock. The couple will be attended by Miss Laura Sheffe and Mr. Dean Simkins. Following the ceremony, the couple will go to Rochester to remain while Mr. Zell is in that city.

Science Aided By Skill

Good dentistry is not learned in a day. It requires study, for it is a science; it requires skill—experience.

Our long experience in this community, our success in every kind of dental work is our best recommendation to those whose teeth are in need of attention.

We make our own vitalized air fresh daily; our instruments are sterilized every time used; Nothing in dentistry too difficult for us.

Daddy's Bedtime Story

Untidy Jimmy Visits the Dainty Ants

"Hello, Jimmy!" the Ant said.

ACK and Evelyn had each had their bath and, wrapped in gay dressing gowns, waited for daddy to begin his story.

"I'm glad you like to be nice and clean," he began, "and are not like Jimmy Juniper, who hated to get washed and was more often seen with a dirty face than with a clean one."

"His mother urged him to be more tidy, and his father scolded; but, after all, it was a little ant that made a better boy of Jimmy."

"He was sitting on the porch one evening feeling very sleepy and wishing he could get out of taking the bath that his mother always insisted upon before he crawled into his soft white bed."

"Jimmy had been nodding several times when he felt his head go around, and before he knew what to think he had slipped down to the ground in front of the porch steps and was looking right into the eyes of a little black ant."

"Hello, Jimmy!" the ant said. "Going to pay us a visit, are you?"

"Jimmy didn't say a word, but the ant took hold of one arm and began to hurry him along through a forest of grass. Jimmy, looking up, saw the clover blossoms nodding like tall palms over his head."

"The ant whisked Jimmy over to the ant hill near the gate. On top of it sat an ant combing its hair."

"Just show this lad how to comb that mop of his," said the ant who was in charge of Jimmy."

"They hustled Jimmy down on the ant hill, and then the ant raised its foot. Jimmy saw a coarse comb on it. It went through his hair very gently. Then it used a finer comb also on the top."

"The ants' bodies were covered with short hair, and when an ant came out of the hill there were sometimes specks of earth on its coat, although the hallways in the ant hill are lined with earth packed down very hard."

"When the ant got out into the air it would hurriedly comb off the earth or sponge its body with its tongue."

"If you lived in this ant hill, young man," one of the ants said, "we'd teach you to keep clean. You have soap and brushes and sponges and fresh cloths and towels and a nice tub of water, while we have only our tongues and the combs and brushes we carry with us."

"Just then a half dozen ants came hurrying out of the hill. They hunched themselves up in the funniest way by their hind feet to a blade of grass while two of their companions combed and brushed and carried them very much as a horse is curried. Then they dropped off to sleep. As Jimmy began to feel sleepy, he fell asleep, too, and when he awoke he found himself in the chair on the porch."

GOOD AND BAD MILKING.

Things to Observe and Others to Avoid in Handling Cows.
Very early I began to milk. One season when only about twelve I and my brother, two years younger, earned \$20 one season milking cows for a neighbor at a penny a cow. But I do not claim to know all about milking even now. A few things I have learned, however. Perhaps they may be helpful to some one else, says the writer of a letter to the Iowa Homestead.

One is it is a good plan not to let one's finger nails grow too long. Most cows are very sensitive on this subject. Often when you see a cow men around uneasily the only reason is that the nails of the milker are cutting into her teats.

Right in the same line with this is the habit some men have of setting their finger ends against the side of the teat when pressing the milk out. This hurts some cows too. Let the

finger be as flat against the side of the teat as possible. It is just as easy to milk that way as any and far more agreeable to the cow.

Some men have a way of jerking down on the teats of the cow (they are milking every time they bring out a stream. This is not at all necessary. In fact, the best milker will be the one who holds his hands the most nearly in the same position relative to the teat and presses steadily and rhythmically on the teat. Nothing is gained by jerking. Rather, the cow is made uncomfortable, and perhaps her bag may be permanently deformed.

One of the fittest habits of a man ever contracted is that of wetting the teats of the cow he is milking with milk before he begins. This, he fancies, makes the process of milking easier. I have seen the hands of milkers which fairly reeked with the discolored milk as it oozed between their fingers. The man who does this is not a fit hand for work. More or less of the foul liquid will get into the pail and help to make the milk insupportable.

Soar the man who has been mentioned for a cabinet appointment will join the candidate who also ran in the lion's den of things forgotten.

Obviously the new 5-cent piece is destined to disappear after a time. There is an Indian on one side and a buffalo on the other.

COLORED MOTHER MUST REMAIN AWAY FROM BABE

Columbus, Dec. 5.—Luella Collins, colored woman, who gave birth to a son soon after entering the penitentiary to serve a ten year sentence from Franklin county for burglary, was refused pardon today by the State Pardon Board. Previous to the birth of the son, many women's clubs petitioned the state authorities for the woman's pardon or parole, so that the child might not be born in prison. Finally the Collins woman was taken to a local hospital under guard, and there the child was born.

C. M. STADDEN ASKS FOR \$25,000

NEWARK MAN FIGHTS CLAIM
FOR LEGAL SERVICES
AGAINST NICARAGUA.

Hearings in Washington Postponed
Until Next Week by Judge
Thompson.

Washington, Dec. 5. — Harking back to the stormy revolutions in Nicaragua in 1909 and 1910, testimony is being given before the Nicaraguan mixed claims commission in support of a claim for \$25,000 presented by Attorney Corry M. Stadden of Washington, for legal services.

Mr. Stadden's voting residence is in Newark, O., where he is well known and where he lived before coming to Washington twenty years ago. While here Mr. Stadden has been engaged in the practice of law and in representing the New Orleans Picayuns at the national capital.

Judge A. R. Thompson, who is presiding at the hearings, which are being held in the Hibbs building, has adjourned the proceedings until next week. Other claims than the one presented by Attorney Stadden will be considered by the commission.

The principal witness in behalf of Attorney Stadden was Luis F. Corea of New York City, former minister from Nicaragua to the United States. He was only semi-officially recognized by the United States, owing to the dispute between President Madrid, the titular head of the Nicaraguan government, and Zelaya, the ousted president, but he contends that the Nicaraguan government owes Mr. Stadden the \$25,000.

Attorney Stadden conducted the legal end of the fight over the Venus and Hornet, improvised warships, taking part in the revolutions. The Venus was bought by the Madrid faction, but was held up at New Orleans by the United States government and her captain was arrested for alleged violation of the neutrality laws. The Washington attorney obtained clearance for the warship and the acquittal of the captain, and subsequently successfully defended a libel against the vessel. He also entered the protest against the clearance of the Hornet by the insurgents.

MONEY BACK DANDRUFF REMEDY

WE GUARANTEE PARISIAN SAGE
FOR DANDRUFF AND FALL-
ING HAIR.

One Application of Parisian Sage
Makes the Scalp Feel Fine and
Adds Luster to the Hair.

Destroy the dandruff germs that's the only known way to eradicate dandruff and PARISIAN SAGE contains just the ingredients that will destroy germs.

Dandruff causes falling hair and baldness because the little dandruff germs rob the hair roots of the nourishment that should go to supply life, lustre and vigor to the hair.

PARISIAN SAGE costs but 50 cents a bottle at druggists and toilet goods counters every where. It is guaranteed to banish dandruff, stop falling hair or scalp itch, or money back. The girl with the Auburn hair is on every bottle. It is a most delightful and daintily perfumed dressing that quickly invigorates the scalp.

"My hair was falling out badly until I began to use PARISIAN SAGE Hair Tonic, but it looks fine now. My hair was getting very thin, but it is getting thick and wavy."—Eliza Archer, 60 Church street, Hartford, Conn.

We want to tell you of the wonders of Western Alabama & its opportunities

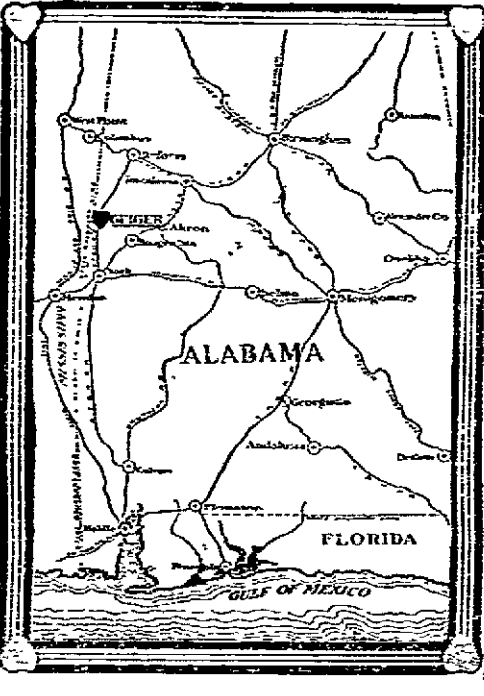

WE want you to know of the wonderful crop-producing Black Lands, of which you have heard before. We want to tell you of the superior advantages of living in a climate where you can work outdoors every day in the year and make five cuttings of Alfalfa.

This is the kind of Crops they make in Our Country

By "possible" crops we mean crops that have actually been tried on a comprehensive scale and found profitable in this section. We name them as follows:

- Alfalfa averages 5 tons per acre.
 - Corn averages 50 bushels per acre.
 - Sweet Potatoes average 200 bushels per acre.
 - Cabbage, 200 to 300 crates per acre.
 - Tomatoes, \$450.00 per acre.
 - Bermuda Onions average, per acre, 500 bushels.
 - Beans average 150 hampers to acre.
- (All other vegetables in same proportion)

These Fruits Thrive Here—Figs, Strawberries, Pears, Plums, Grapes, Peaches, Apples; also Pecans, Peanuts, Etc.

Here are some Vital Points to Consider

The Black Lands of Alabama will produce twice the size crops that can be made on lands in this section. These lands can now be purchased for less than the standard value of the best lands in this section. The market value of crops produced on Alabama Black Lands is much higher than the same crops bring here.

ALABAMA BLACK BELT FARMS

Are divided into units of 10 acres each; one may purchase as many units as desired in a solid block. The first 80 units have been priced at \$50 per acre, on long term of easy payments. When 80 units have been sold the price will be advanced. Lucky is the man who makes an early selection, at \$50 an acre.

Pinson & Geiger
Land Corporation Inc
\$500,000 PAID UP CAPITAL

WE want to tell you and show you how you can make more money on ten acres of this land than you can on thirty acres of land in this section. We want to lay the facts before you and let you be the judge. Is that a fair request?

Living Conditions are perfect in Our Country—

At Geiger, Alabama, one enjoys practically all the advantages of education and social intercourse one could obtain in the average town of 10,000 inhabitants.

A \$5,000 Church has been erected and is a constant source of pleasure to all who are so inclined.

A \$10,000 School Building offers education to the children of all holders of these lands. A State Bank, established for three years, offers every financial advantage.

A \$7,000 Hotel, operated on American Plan, at reasonable rates, offers hospitality to the traveling public.

A large Dry Goods Store, a large General Store, three Grocery Stores, a Drug Store, a Barber Shop, Post-Office, Printing Office, Newspaper, Cotton Gin, Warehouse, Livery Stable, Garage—these and other business institutions are now located at Geiger.

A fine Masonic Hall, Ladies' Aid Society, Base Ball Team, Tennis Courts, and various other social features.

The above features are quoted as evidence that this is a growing, thriving community; one not of the wilderness type, one where a man will find excellent advantages for the raising of a family and providing in plenty, both in the profits he earns and the other things worth while.

WHEN YOUR HAIR BRUSHES OUT

Your hair is as sensitive as your skin—even more so. It stands up under heavy hats, cutting irons, and diseases of the scalp, etc.—But there is a limit.

When you comb and brush your hair in the morning, watch for the "TRAILERS" that turn grey, fall out, and comb out with the first morning brush.

You MUST know that there's something wrong. If your hair was in good health, it wouldn't fall out, nature never intended that. There is something wrong at the root of things—the hair needs a tonic—a restorer.

When you are sick you take medicine. That is your first thought. Its turning grey, falling out, are both ways the hair has of "complaining of illness." It can't do it in any other way.—Do YOUR PART. Use HAY'S HAIR HEALTH.

True Narratives of Interesting Cases by a Former Operative of the William J. Burns Detective Agency

THE BRIBE TAKERS

How a Clique of Corrupt City Fathers Was Brought to Book

The connection of the Burns detective agency with the exposures of bribe-takers in various towns throughout the country has been so well exploited that it is unnecessary for me to say anything about it here. I am going to tell the actual story of how the ring of choice crooks, who have kept track of bribery stories in the newspapers in the last year, may be able to guess which of our cities it is that I am talking about. It is a typical case of the exposure of municipal corruption by outside detectives, and has been duplicated in a half dozen instances in other cities to my own knowledge.

Springvale had for years been what a magazine writer once called "corrupted and content." It was a busy manufacturing town. It was prosperous. That is, there usually was plenty of work to be had for the working people, plenty of business for the merchants, and plenty of money to be handled by the local banks. Most of this prosperity was due to the presence of the factories in the town. These factories were in the hands of a clique of men who placed money above all things. They would go to any length to make more money—and one of the easiest ways for them to make it was to violate the law, usually in the form of ignoring city ordinances.

Thus, there were violations of the child labor law, violations of street ordinances, water ordinances, building ordinances—in fact, violations of most of the articles in the municipal code applying to the regulation of factories were to be found in these establishments. Naturally these violations could not be committed and continued year after year, without being disturbed, without the connivance of the local authorities. The mayor, the councilman, the chief of police, the building commissioners, in fact, all the active heads of the city government, must have winked at the lawlessness of the factory owners, or the lawlessness would have been stopped.

Naturally, these heads of the local government, being human, and most of them politicians, did not agree to wink so accommodatingly solely for the good of their health. They did it for what there was in it. Thus, the factories became a fertile source of corruption of the city government of Springvale. When a factory needed the stub end of a street in its business, an ordinance would go through the council without any trouble—because the ways had been well greased by the factory's owner. If a factory wanted to tap a city water main and use city water without having it metered, it did it, because the water department was fixed. If a street car line felt that it needed a residence street in its business, that street it got in spite of the protests of property owners. The city hall machinery ran smoothly for the benefit of these factory barons because they controlled the oil that made the machinery go.

The whole town, naturally, in time came to take its moral tone from this influence. The banks were in on the deal. The bank that contributed most to the prosperity of the politicians was the one that got the deposits of city money. Several big merchants fell in line. Special privilege had the town by the throat; and while the town was prosperous in money matters it was poverty-stricken in good citizenship.

A few sterling citizens began to get tired of this state of affairs. They were men who believed that a city should be something besides a mere machine for the manufacturing of money. They believed that a city government should think first of the welfare of its citizens, and of the future of children growing up within its walls. They placed civic spirit above dollars, and to them was due the cleaning up of Springvale.

One of them was a judge on the local bench who had waged uncompromising war against the special interests and corruption. He was the only judge in town who was not the big interests' bound servant. Then there were two lawyers who had resisted the temptations of big fees offered them to turn crooked, one banker, one minister, two or three merchants, two or three others of various occupations, and one old retired capitalist. This man was the backbone and the foundation of the crusade. When this group of public-spirited men had determined on their course he quietly deposited \$100,000 cash of his own money to be used in furthering the campaign.

It was the action of the city council in passing an ordinance that deprived the city of a square that had been set aside for improvement into a little park that brought on the war. The council calmly gave this tract to a railroad company for use as a switching yard. The deal was so raw that the mayor, who hitherto had been on the fence, vetoed the ordinance. The council laughed and passed the ordinance over his veto. Obviously there was only one answer to this: The railroad company had come across with enough money to make the council defy all public opinion. They had been bribed.

It was then that the decent and prominent citizens of the town got together and resolved to clean up the town. "What is the best way to go about it?" asked one of them. "Get after the council," said the old judge, grimly. "Prove them guilty of bribery. Send them to prison. Break them up. Throw the fear of God so hard into the city government of this town that it will be years before a city official dares to think of taking a bribe."

"That is right," agreed the retired capitalist. "We must scare this town so it will not forget."

The first process of concocting this scare was the sending of Cluffer and Dawson of the Burns Detective Agency to take up a temporary residence at the Imperial hotel—the leading hotel—in Springvale. Cluffer was a merry-looking little Englishman who could make friends with anybody in the world at ten minutes' notice. Dawson was a young, fine-appearing fellow who looked the part of a high class salesman, or a high class gambler, depending on your point of view. They merely registered at the Imperial, and commenced to spend money judiciously in the bars around the city hall. It was not long before they began to attract attention.

As in every city, the liquor emporiums near the city hall were the meeting places for a certain brand of politicians—the brand that Cluffer and Dawson were anxious to meet. Naturally they did not display any of this anxiety. After two or three days of being good fellows around town they began to make the acquaintance of the politicians who were steady customers of the places where the detectives were spending their time and money. At first the politicians were shy about making acquaintances. Later they began to warm up, and after a week of careful work the detectives found themselves part of the little ring that made these bar rooms their headquarters and whose occupations lay in the city hall. There were two councilmen with whom they became especially friendly, Corcoran and Stein, who were the leaders of the city hall clique. When they had established themselves on firm ground with these two, Cluffer and Dawson broached their alleged reason for being in Springvale.

"We represent the American Wood Block company," they said, "and we want to try to sell some blocks in Springvale. We sell the best blocks in the world."

Here they brought out some excellent samples of wooden paving blocks and began to expatiate on their merits. "Not only that, but we can sell these at prices far below those charged for the ordinary blocks," continued Cluffer. "We are so anxious to put our blocks into Springvale streets that we will make the city a price at which it can save all kinds of money on its paving bills. I'll bet you can save the city \$50,000 a year and give it better paving material than it ever had before."

"Well, what of it?" said Stein. "Well," continued Dawson, "we thought if we could interest you gentlemen and could show you where we could save the city all this money, we might convince you that it would be in the interests of the city to introduce wood paving here."

"Yes," said Stein, who was the spokesman for the councilmen. "What of it?"

"Why," said Dawson, "you gentlemen, in order to help the city save money, ought to introduce an ordinance calling for wood paving on some streets. Then, after we had shown how much we could save the city, we might hope to get some bigger contracts."

Corcoran and Stein laughed at one man.

"Gee, but you're green!" laughed Stein. "Is that really what you got us up here to tell us?"

"Why, certainly," said Cluffer, all innocence. "We're salesmen for the wooden block company."

"And you've got a couple of wooden blocks yourself," roared Stein. "If that's all you know about selling stuff to cities I don't see you holding your jobs much longer."

"Why?"

"Because that ain't the way it's done," said Stein. "Anyhow, not in Springvale. You got to have a different system than that, Johnnie, to do business here. Save the city money! What the devil do you suppose we care about the city? To hell with the city! If that's all you know about getting city contracts, take your little

blocks and go. You can bet you'll never get a contract here, if that's all you know about the game."

Cluffer and Dawson, having found out what they were sent for—that the councilmen of Springvale were reaching openly for graft with greedy hands—and having implanted the germ of wood block paving in the minds of the two leaders, quietly packed their grips, paid their bills at the Imperial, and slipped out of the case.

Then I came into the game. Now, there really was an American Wood Block company, and the president of it was an old man named Steger. He was interested in running down grafters, and for the purposes of this job he loaned me his name and identity. A few days after Cluffer and Dawson had retired from Springvale Alderman Stein got a letter from the president of the block company. It read:

"My Dear Alderman:

"I am afraid that my two salesmen who saw you in regard to furnishing wooden blocks for paving in your city knew little about how such things are managed. Now you and I, my dear Alderman, are men of experience and we know how such things are done. I hope to have the pleasure of seeing you at noon at the Imperial hotel in your city. It is long since I have taken part in any selling campaign, but in a matter like this, Alderman, I feel it is better and safer that I, and I alone, cover the ground."

"I suggest that you destroy this letter. I have always found it advisable to save as few papers as possible. I am, very truly yours,

"HERMAN V. STEGER,
"President American Wood Block Co."

When Stein got that letter he saw at once that it was from a man of his own heart. The tone of it showed

"Well, gentlemen," I said, "I am here to sell Springvale some cedar blocks. And I won't be so foolish as to talk about how much money I can save the city."

We had another laugh over this. We understood one another right away.

"The whole town ought to have wooden block paving," said Corcoran. "I know it. It's got to have it."

Again we laughed. We were getting along famously.

"Show me a good hand in this matter, gentlemen," said I, "and I'll show you a better one."

"We'll show you something tonight," said Stein. "It's a council meeting night. Just watch tomorrow morning's papers for the proceedings and you'll see how we do things in Springvale."

Next morning I saw that Stein had introduced and the council had passed an ordinance calling for the paving of two blocks of an important street with wood blocks.

"Well," said he, when he called upon me soon after breakfast, "how do you like that for action? That's just a sample we showed you. Now all you got to do is to pay the price and we come across with the whole delivery of goods."

"How large is that delivery?" I asked.

"Why, we'll pave the whole damn city with blocks and specify 'your brand,'" said he, "if you'll do the right thing."

"What do you call the right thing?" I asked.

"Well," he said, "some of these aldermen are cheap skates and some are what you call wise guys. Some can be reached for a ten-case note and some want as high as five hundred. There's 18 of 'em to be deliv-

have the \$5,000. I don't care how much you make out of it; I don't care if it only costs you a thousand to get your men. I want to hear you tell me that you've got 'em before the money becomes yours."

"All right," said he. "I can get my men in one day."

He did, too. That night he was back with a list of his men. So much for this man, so much for that—he had them all there and the amounts required to buy their votes for the shameful measure he was putting through. This measure called for nothing more or less than paving about half of the streets of Springvale, except the boulevards, with wooden blocks. And my company was to have the contract of furnishing them. It was raw, rotten robbery; but Springvale was used to just that sort of thing.

I paid over the \$5,000 in cash and Stein made good on his promise. Next council meeting the ordinance went through with a rush. Stein called on me the morning after.

"Well, are you satisfied with the way things are done here?" he said.

"Perfectly, Stein, perfectly," I replied heartily. "Things could not have been done any better to suit me. But, Stein, I wonder if they have been done to suit you?"

"Why?" he said. Then, as if instantly scenting a rat, "Why? What in hell do you mean?"

"Suppose," said I, "that I should tell you that every word that you and I have spoken in this room has been overheard by a committee of prominent citizens in this town and several stenographers. What would you say?"

He looked me up and down and his usually red face began to go white.

his trial fell due, and it was partly my intercession, and explaining the great service he had done us in unravelling the whole mess, that kept him from finding a harder fate.

Springvale is fairly clean now, politically. The politicians are too scared to be crooked—for the time being.

Rivers In the Air

Did you know there are air-falls in the atmosphere just as real and apparent as are the waterfalls you have so often viewed with admiration and delight because of their natural beauty? In the famed Yosemite valley the most interesting feature is, to the scientist perhaps, its winds.

The winds there are seldom more than light zephyrs, moody and capricious to the ordinary tourist, but when rightly understood, one of the wonders of the valley. These interesting facts are told by Prof. F. E. Matthes of the United States geological survey in the Sierra Club Bulletin.

In no other place in the entire world, perhaps, are the air currents more systematic and regular than in the Yosemite valley, he says. In the first place, the sun naturally heats the ground more rapidly than it does the air. Thus every hillside basking in the sun becomes a heat radiator and gradually warms the air above it, so that the air, becoming lighter, begins to rise.

But under those conditions the air does not rise vertically because the air directly over it is still cool and is pressing downward. Therefore, up the sides of the warm slope the heated air makes its way. That is why the tourist making his way up the mountain slope with the sun on his back finds his own dust traveling upward with him in a choking cloud.

But on coming down the same trail when the face of the slope is in the shadow the dust ever descends with the traveler in the same irritating cloud. When the face of the mountain is in the shade the air is cooling from the face of the slope and is pressing its way down into the valley.

Just as soon as the sun leaves the slope of the mountain, the earth begins to lose its heat by radiation, and in a very short time is really cooler than the air. The layer of air next the face of the hillside chills by contact with the earth, and becoming heavier as it condenses, begins to press down along the slope. Thus there is, normally, the warm updraft on the sunny slope and the cold downdraft on the side in the shadow. In a windless region like the Yosemite, with its bold cliff topography, these upward and downward air currents are somewhat interrupted. On every sunny slope cold cliffs create shadows and consequently there are downward air currents of local breezes daily at regular hours, as the shadows come and go.

Glacier Point is one place in particular in which Professor Matthes says this shadowy effect on the air currents may readily be tested by casting small bits of paper into the air. As the afternoon wears on and the shadows in the valley gather, the cold draft in the hills pours downward, forming the valley like a great river, and flowing on to the plains below. Every side canyon and valley sends its reinforcements, like the tributaries of a great river, to this general air current flowing onward to the plain.

With the return of the morning sun, the earth at the tops of the hills is warmed and the downward current in the air is suspended. The updraft soon begins as the sun shines into the valleys. The air currents are so regular that they may almost be timed.

Few realize, says the author of the paper, that it is on these reversing air currents that one of the chief attractions of the Yosemite depends. Mirror lake, to be viewed at its best, must be seen in the early dawn, when the reflections are most perfect.

The lake is stillest and its surface most mirror-like when the cold night currents have ceased and the uprising day currents of air have not yet begun. Yet unless one is punctual he will miss the chief beauty of the place, for this perfect stillness is as brief as the turn of the tide.

In the evening and during the night, when the downdraft of air from the mountain sides is strong, the stream of cool air pressing down the slope plunges over cliffs just as water is seen to fall from similar heights. On either the Yosemite falls or the Nevada falls trails, this air-fall curiosity is readily encountered in the evening.

During the daytime, on the other hand, the air rises vertically along the cliffs and up into the hanging valleys, taking part of the spray from the falls along with it. A pretty example of the air carrying the spray from the fall upward may be seen at Bridal Veil falls, where two little combs of spray, one on each side of the stream, steadily curve upward over the brink.

As soon as the sun is off the cliff the spray combs cease to exist.

She Got the Money.

"What did the lady sue for?"

"She sued for \$10,000."

"Did she win?"

"She, sure did."

"Huh! I suppose her lawyer got most of it?"

"Her lawyer didn't get a cent, as far as I'm able to find out."

"Go on! If he was able to recover that big verdict, he was smart enough to get his."

"Was he? Well, he wasn't. She married him!"

ered, and I guess \$5,000 would just about be right for what you want."

"Five thousand is what I had thought would be right," I agreed. "But how is the money to be got to the right man?"

"I'm the money wagon," said Stein. "I handle all such deals for the boys."

Then without any solicitation on my part he began to assure me of his reliability by relating in detail how he had carried money from briber to bribe-takers in half a dozen cases. He had a wonderful memory. He gave dates, places, figures and names with an exactness that was marvelous. He told how So-and-so had given him such and such a sum in such and such a place, how he had split it up in certain amounts and given so much to that alderman and so much to that one, and how such and such an ordinance had been shoved through the council as a consideration. He had been so accustomed to dealing in graft that he looked upon it as a pure business transaction. He even referred to entries in a note book to substantiate some of his statements.

When he was through I said, "You say you want to see the money in your hands before the ordinance goes through. Now, I don't mind having my money up, but I want to see the goods delivered before I let go of it. Now, you go out and get your men one by one. Come back and give me your word that you've got them, and how much they cost you, and you can

You Couldn't Hire Me to Wear Dress Shields Again!

I Use That Marvel, PERSPI-NO!

I'll never be without that wonderful powder PERSPI-NO again. And hubby says he never will either. My arm-pits now are always fresh and cool. My waist and dresses never fade, get stiff or stained, all my dress-shield misery is gone besides.

No more misery from rolled up dress shields that form a rosy web under the arms. No more humiliation.

PERSPI-NO is just glorious! We use it in summer when clothing is light; we use it in winter when clothing is heavy. It isn't a greasy, half-gumming cream; it's a powder. Use it wherever there is excessive, unnatural and misery-producing perspiration. PERSPI-NO is also magic in absolutely removing all perspiration odors. As a body sweetener there is nothing like it. A free powder pad in each tin.

PERSPI-NO, sold at drug and department stores, 25c a box, or sent on receipt of price by The Perspo Co., Chicago, Ill.

For sale and recommended by City Drug Store, Evans' Drug Store, R. W. Smith.

Woman Is As Old As She Looks

No woman wants to look old. Many in their effort to look youthful resort to the "beauty doctor's" prescriptions, their mistake is that they visit the wrong department in the drug store. Beauty depends upon health. Worry, sleepless nights, headaches, pains, disorders, irregularities and weaknesses of a distinctly feminine character in a short time bring the dull eye, the "crow's feet," the haggard look, drooping shoulders, and the fading complexion. To retain the appearance of youth you must retain health. Instead of lotions, powders and paints, ask your druggist for

DR. PIERCE'S Favorite Prescription

This famous medicine strikes at the very root of these enemies of your youthful appearance. It makes you not only look young, but feel young.

Your druggist can send you in liquid or tablet form and send 50 new-cut stamps to Dr. Pierce's Invalids Hotel and Surgical Institute, Buffalo, N. Y., and trial box will be mailed you.

JEWELER AND OPTICIAN
64 UNION STREET WEST NEWARK

CHARGED WITH DESTRUCTION OF AN ALARM CLOCK

James William Yankie had time to kill. James William Yankie had time to burn, so a fellow employee at the plant of the American Bottle Company proceeded to kill it and burn it for him. Time wouldn't have been killed and burned but for the fact that the alarm clock in which the time was kept refused to keep it straight. It was this way.

Yankie, for the convenience of his fellow laborers at one of the Owens bottle-blowing machines at the bottle plant, decided to install a chronometer of his own design. Taking an ordinary alarm clock, that seemed to have none of the usual bad habits, he mounted it on a heavy board. At one end of the board he bored a hole and by this hole he hung the board and clock on a nail. All went well until the clock went wrong—that is, got in a hurry and proceeded to run ahead of its ticker, and then trouble proceeded to break in large and forcible gobs. The fact that the timepiece had been so thoughtless as to get about five minutes' jump on the official time set by the U. S. Weather Bureau so peeved a person of foreign extraction who ekes out his existence by forking red-hot bottles as they fall from the jaws of the Owens machine at the rate of 'steen per instant, that he annexed a weapon of some considerable weight and heft and with this weapon smeared the offending clock in the region of the midriff with sufficient animosity to render that product of the clock maker's art hors de combat, on the blink and teetotally bust. Not content with this the destroyer, who flourishes under the name of No. 305, next cast the battered form of the clock into a wheelbarrow load of red-hot glass, an act that almost resulted in its entire destruction. Tempus fugiet there but an instant when its owner rescued it and taking it to the office of 'Squire D. M. Jones as Exhibit A swore out a warrant for the arrest of No. 305 on a charge of malicious destruction of property.

At this point two additional characters enter and grab the spot-light, to-wit: Constable Robert Forgraves and Lig Savetey, erstwhile No. 305. These characters enter together because of the fact that the constable has gone to the glass plant and, in accordance with his warrant, has arrested No. 305.

When the court of the 'Squire was reached and the stage set for the finale it developed in the filing of his affidavit Yankie had been mistaken in the number of the man who had destroyed the clock and that not No. 305 but that some other gentleman with some other arithmetical appellation had done the deed.

No. 305, Lig Savetey, was released from the toils and absolved and in the meantime the officers are looking for a man with a number who hit a clock in the face with a club, said clock being of the value of one dollar and twenty-five cents.

M'CULLOUGH IS FIGHTING EXTRADITION

Sheriff Frank E. Slabaugh returned Thursday noon from Lansing, Mich., where he has been for several days attending to the matter of the return from that state of Dr. Robert E. McCullough, who is wanted in Licking County on a charge of non-support.

McCullough is making strong efforts to escape a return to this county. The matter of the hearing in an effort to extradite the man has been postponed for one week and for that reason the sheriff returned home until the time for the hearing in Lansing.

FIRST THINGS

The first lunatic asylum in England was founded 365 years ago today. This institution, called Bethlehem, was the first of its kind in Europe, with the exception of one at Granada. For two centuries the unfortunate patients in this and later similar hospitals were treated with cruel severity. It was long held that the insane were afflicted with devils as a punishment for their sins, and they were subjected to every indignity that superstitious ferocity could imagine. Until 1770 the inmates of Bethlehem were exhibited as a show, an admission fee of one and twopence being charged. In 1792 more enlightened methods of treating the mentally ill were introduced by Pinel at the Bicetre, in Paris, and by William Tuke, a Quaker physician, in England. A little later, Esquirol, a French physician, added greatly to the knowledge of mental ailments. In 1815 all England was shocked by the exposure of enormous cruelty and unmentionable immorality at Bethlehem hospital, and this led to gradual reforms. Of late years great strides have been made in the treatment of the insane and mechanical restraints have all but been abandoned.

COLD IN HEAD GOES IN 5 MINUTES

Rub a little INFLAMMACHINE in your sore, distressed nostrils and within five minutes the genuine relief your poor stuffed-up head will get will be worth more than the 25 cents you pay for a generous porcelain jar at T. J. Evans' Drug Store.

It's wonderfully effective for Catarrh, Sore Throat and Croup, and for baby's cough and stuffed-up chest. It instantly stops itching anywhere. INFLAMMACHINE is America's greatest household salve.

STRIKE OIL AT 2800 FT. AT MOSER'S

Developments in the oil-drilling operations on the farm northeast of the city, owned by Joseph Moser of 167 Maholm street, included the striking of oil at 9 o'clock last night and the filling of the well to a depth of 100 feet before daylight this morning. The oil, the drillers report, is the best that has ever been found in Licking county, and their prophecy of a yielding well is being anxiously considered by farmers owning adjoining farms.

A crowd of nearly 50 farmers was present at the farm all yesterday afternoon, and a large number even remained until oil was struck last night. The resuming of operations this morning brought large crowds from all around the county, including a number of Newark men interested in farms in that vicinity. Eighteen feet of the glacial drift sand was penetrated up to noon today, with the quantity of oil increasing with every foot of progress. It is believed that the sand limit will be ready for piercing before nightfall and that the well will be shot either tonight or tomorrow morning.

WILL ATTEND BULL MOOSERS CONFERENCE

Licking County "Bull Moosers" will attend the conference of the Progressive party in Columbus Saturday. Attorney A. S. Mitchell, leader of the local adherents of the Roosevelt policies, will be at the meeting and it is understood that a number of others will probably make the trip and take part in the discussion of plans for the continuance of the party in Ohio.

BICYCLE THEFTS ARE NUMEROUS OVER THE CITY

Bicycle thieves have been working overtime in the city during the past few days. Frank Dugan of the Mullen Grocery company reported the theft of a blue-framed Avalon bike today. This is the fifth bicycle theft reported since Saturday night. In several of the cases the owners were unable to give the name or number of their bicycles. The police are handicapped in stopping this sort of crime as many bicycle owners leave their property without locks or any other precaution against theft.

RID YOUR FACE OF ALL PIMPLES

Skin Cleared in a Few Days by Stuart's Calcium Waters, the Famous Blood Purifier.

Pimples, blotches, skin eruptions of all kinds, are simply the impurities in the blood coming to the surface. All the external treatment in the world won't do a particle of good unless you purify the blood. And there's nothing so humiliating as a face that's all "broken out" and spotted.

It's a Glorious Chance to Be Rid of Pimples. You Just Feel Fine.

Stuart's Calcium Waters will clear the most obstinate complexion, because they go right into the blood and remove the cause of the trouble. The blood is cleansed of all impurities and foreign substances and these are quickly eliminated from the system. You'll notice a wonderful change in a few days—you will hardly know yourself in a week. And Stuart's Calcium Waters are absolutely harmless to anyone. Their ingredients are just what a physician prescribes in most cases of skin eruptions and poor blood. These waters are put up in a concentrated form, which makes them act quickly and thoroughly.

You can get Stuart's Calcium Waters at any drug store at 50 cents a box. Begin taking them today and then look at yourself in the mirror in a few days and find all those awful pimples, blackheads, acne, boils, liver spots, rash, eczema, and that muddy complexion rapidly disappearing and your face cleared like the petal of a flower.

DAMAGE SUIT FILED FOR LOSS OF HIS FINGER

Claims To Have Been Thrown Against Saw in Mill—News of the Licking Courts.

Claiming that the carelessness of others resulted in permanent injury to him when his left hand was lacerated by the saw of a sawmill owned by Edward Foster, whose home is near Johnstown, Lewis Seesholtz, by his attorneys, Smythe & Smythe, filed a suit in common pleas court Thursday, in which he asks damages in the sum of \$5120, with interest from Jan. 27, 1912. He makes Edward Foster, the owner of the mill and George Elbin, the superintendent, defendants.

Seesholtz claims that he was thrown against the saw when Elbin, who was operating the carriage on which the plaintiff was riding, reversed it without warning. He avers that he is without fault in view of the fact that he had no means of knowing that Elbin would do this.

The affiant says that he was thrown against the saw, his left hand lacerated and the second finger amputated. He says that his injury confined him to his bed for a period of three months, damaging him in the sum of \$120.

In view of all of the foregoing Seesholtz asks judgment in the sum of \$5120, with interest from January 27, 1912.

Peace Warrant Proceedings.

Cary Spencer Hawke, who was arrested by the police yesterday on a charge of carrying concealed weapons, must face a peace warrant proceeding in the court of 'Squire D. M. Jones. The affidavit in the matter was filed by his wife, Joanna Hawke, who says she fears that he will do her bodily harm.

Alimony Suit.

Extreme cruelty and failure to provide are the grounds cited by Helen M. Harris of Utica in the petition for alimony which she files against Elza M. Harris, whom she married in 1880.

The plaintiff says that her husband has real estate in Utica worth \$2000 and chattel property worth about \$500, which he will dispose of to her injury unless restrained. She asks alimony pending the hearing of the case and reasonable permanent alimony at the final hearing.

HITCH IN THE DESTRUCTION OF METZ BLDG.

The old Metz building, opposite the Auditorium, may remain standing for a few weeks longer, unless the original agreement between A. R. Lindorf, who is in charge of the estate, and the contractor who was to have commenced demolition operations today, is carried out. Under the terms of the agreement, Mr. Lindorf was to have the privilege of using any of the brick he might wish to take from the ruins, but the contractor decided that he could make a personal use of the brick.

A hitch in operations followed, and Mr. Lindorf will not permit the destruction of the property to continue on any terms other than those he originally arranged. It is said, however, that other contractors in the city are offering their services for the removal of the unsightly building.

BOND SALE.

Sealed bids will be received at the office of the City Auditor of the City of Newark, Ohio, until twelve o'clock, noon, Monday, December 10th, 1912, for the purchase of \$25,000 of North Street and Granville Street drainage sewer bonds, dated Oct. 1st, 1912, and maturing as follows: Nos. 1 to 10, inclusive, due and payable in installments on the first day of October in the years 1913, 1914, 1915, 1916, 1917, 1918, 1920, 1921, 1922 and 1923. Said bonds are coupon bonds Nos. 1 to 9, inclusive, being of the denomination of \$1,000.00 each and No. 10 being of the denomination of \$250.00, all bearing interest at the rate of 5 per cent. per annum, payable annually at the office of the City Auditor in the City of Newark, Ohio. Said bonds are issued under authority of Section 3939, of the General Code of Ohio, and an ordinance passed August 15th, 1912, by the Council of the City of Newark, Ohio.

Said bonds will be sold to the highest and best bidder for not less than par and accrued interest. All bids must state the number of bonds bid for and the gross amount of the bid and accrued interest to date of delivery, and must be accompanied by a certified check on some solvent bank, payable to the City Treasurer, for ten per cent. of the amount of the bonds bid for, upon condition if said bid is accepted, the bidder will receive and pay for such bonds as may be issued as above set forth within ten days from the time of award, said check to be retained by the City of Newark, if said conditions are not fulfilled. Bids must be sealed and endorsed "Bid for City of Newark, Ohio, Bonds," and addressed to the City Auditor of Newark, Ohio.

The right is reserved by the City to reject any or all bids.

12 EAST PARK PLACE

OHIO BRIEFS

Coshocton: Jay Abbott, Republican candidate for county commissioner, will contest the election in which he was defeated. He claims too many ballots were thrown out by the election board.

Dayton: Wayne Girard, aged 9, who lost his father and mother and one arm in a Big Four wreck four years ago, has settled with the company for \$12,000.

Columbus: Rev. Theodore Irving Reese, rector of Trinity Episcopal church, has been elected bishop coadjutor of the Southern Ohio diocese.

Columbus: A few hours after Louis H. Bagley, 70, a civil war veteran, drew his pension, he was held up and robbed of \$30 within a stone's throw of the state capitol.

Cleveland: An unknown woman about 25 years old took poison in a local park and was found dead. A note pinned to her breast said: "It is not necessary to hold an inquest. There are no relatives to notify."

Columbus: William Engle, 32, a Panhandle brakeman, and C. E. Leady, B. & O. brakeman, both sustained crushed hips in two different accidents when caught between freight cars.

Columbus: Mrs. Fannie Brooks, 78, colored, died of blood poisoning caused by a fish bone which lodged in her throat.

Columbus: Robert Keppler, who posed here as an evangelist, and ran away with 14-year-old Sylvia Turney, was identified at Boston yesterday when arraigned in court. He faces four serious charges.

VISITING NURSE
CHAPTER OF THE
KING'S DAUGHTERS

Through the kindness of the ministers of the city, the Visiting Nurse Chapter of the King's Daughters received the union Thanksgiving offering which amounted to \$64.46. The Chapter has been organized for five years and its aim is to relieve those who are sick and not able to afford the services of a nurse. We feel that it is the best work we have ever undertaken and we solicit the interest of every citizen in our effort to carry it on. We have the co-operation of all the physicians in this work and all calls are expected to come through them to the chairman of the Chapter. Through the courtesy of the board of managers of the City Hospital, our nurse is furnished us, although in many cases the services of a good, practical nurse is needed, rather than a graduate nurse, where she can go in if necessary and stay until a physician in charge sees fit to dismiss her. We thank the ministers of the city for their interest and the general public for the splendid offering. (Signed),

ELIZABETH FELIX,
Chairman.

ARRANGE FOR
GIRLS' CLASSES
IN SEWING, ETC.

A called meeting of the Y. W. C. A. board was held this morning in the Plymouth Congregational church with fifteen members present. The reports of the various committees were read and approved. In the report which Mrs. Montgomery gave in regard to the class work, plans were made for classes in arts and craft work, sewing, cooking, domestic science, hygiene and classes in English for foreigners. The fees for this class work are to be small so that all girls may have the opportunity of taking up any of this work when they desire.

The location committee together with the trustees is to give a definite report in regard to the location of the headquarters at the next called meeting which will be held in a few days.

Attention, Old Guard!

Every member of the company is ordered to assemble at the armory in Memorial Hall on Saturday, December 7, at 2 o'clock for drill and business. The invitation of Company A, Old Guard of Columbus for luncheon with them on inauguration day, procuring army overcoats for the company, men's drum corps of company and other important business will come before the meeting.

MATHEW BOUSCH, Captain.
J. W. LEIDIGH, Adjutant.

THE BIRTHDAY CALENDAR

IF THIS IS YOUR BIRTHDAY.

Small troubles threaten you, and your patience will be sorely tried. While thus annoyed, you will not be able to give your best judgment to new enterprises or changes. A slow but steady course is best.

Those born today will be of roving disposition. This can never be wholly changed, but while very young, they should be patiently taught the traits which will make the journey a source of advancement and prosperity, rather than aimless.

PYTHIANS CHOOSE
OFFICERS; FINE
MEETING HELD

With by far the largest attendance of members in many months, Roland Lodge, No. 305, Knights of Pythias, Tuesday evening held their annual election of officers, resulting in the choice of the following officers for the coming year:

C. C.—Angus Smith.
V. C.—Carl T. Myers.
Prelate—J. Shannon Loughman.
M. at A.—Charles Wagenheim.
I. G.—Arthur Cooley.
O. G.—Arthur Banton.
K. of R. & S.—James McGough.
M. of F.—Charles E. Root.
M. of E.—Charles L.H. Long.
Trustee—Henry Pfeffer.

Relief Committee—T. W. Brandt. Following the election of grand officers, the result of which will be published in a few days, the Page rank was conferred and a delightful social session held, which included the serving of a buffet lunch to the members.

Attending Auditors' Meeting. County Auditor-elect Jesse Hursey is in Columbus, spending the day in attending the meetings of the County Auditors' Association. This association at its meetings takes up and discusses matters of interest and value to auditors and auditors-elect.

LOVING PARENTS'
HEARTY PRAISE

In Public Statement They
Endorse Father John's
Medicine

Fall River, Mass.—Mr. and Mrs. Handel Hobson of 28 Holden street, give out the following statement: "Our little boy of four years had been very sick for quite a while when a friend of ours told us to try Father John's Medicine. We got one bottle, and before it was gone, we saw a great improvement in Joseph's health. Then we got a second one, and we are very glad to say that he is now all right again. It has not only done him a deal of good, but made him a very lively little fellow. We can truly recommend Father John's Medicine to everybody." (Signed) Mr. and Mrs. Handel Hobson.

A Real Christmas Present

The E-Z VACUUM SWEEPER is a 3 bellows machine weighing 9 3/4 pounds, and can be operated by a child. It does away with the hard work and the drudgery of every day cleaning—it picks up the dirt; not merely cleaning the surface of rug or carpet, but actually sucks the dirt out and through—it ends the horrors of house cleaning because it cleans so thoroughly every day that rugs and carpets do not have to be removed from floor. It picks up the dirt and removes it out of your home, does not raise dust, but absorbs it, reducing dust to a minimum. Each machine is guaranteed. No noise, no vibration, cleans ten times as thoroughly as carpet sweeper, runs as easily—in fact we are willing to test it against any machine on the market, electric or hand-power. To introduce the E-Z VACUUM CLEANER we are going to make a special price of

\$8.50

You can't afford to do without it—it will be a pleasure to show you the machine—a necessity, not a luxury.
